SUBJECT.

Allowance to Hospital Asst. Malavalli for treating an wounded in a riot case

---

Lieutenant Colonel

W D 88—GPB—50,000—24-7-16

Inward

a claim for Rs. 70/8, at 8as. a visit, is made by the Malvalli Hospital asst. for having attended on 3 person who had received gun-shot wounds (in the Riot) at their houses, on the orders of the Dist. Supt. of Police.

The H. Asst. says that as the persons were not in the lock-up they were not entitles to free medical attendance.

The Senior Surgeon & the Civil Surgeon say that the cases are to be treated as private cases and that the H. Asst. should be remunerated by the parties if they can pay the same or by the D. Fd.

The Dist. Supt. now requests the Govt. to sanction the allowance of Rs. 70/8 to the H. Asst.

This question we may perhaps ask the Govt for information as to the circumstances under which the H.A was directed to treat the wounded persons in their own houses - C

30-9-96

The Senior Surgeon's letter to the Dist. Supt. of Police, Chamarajanagar (Dated 2-10-96) was not absolute enough - I think it should be stated that the Medical Officer is to treat in Govt. Hospitals only such persons as are brought to him by the Police Authorities or Magistrates. Any person who is wounded or maltreated by the Police and is brought to the Hospital for treatment should be treated free of charge - Should he not be able to pay the Police should be asked to make good the amount spent on him. If he refuses to pay the amount he should be sued in a Civil Court. In the latter case, the Police Authorities should be informed that the person is not entitled to free treatment.

the bill may be some. tioned & the charge met from the amount being collected from the inhabi. tants on account of the Municipal Police.

X. I thought the whole charge was provided for in the Police Budget.

Subs. Sheriff 2/9/97

This matter is still under consideration, & has nothing to do with the Bills now submitted for sanction.

Under the special circumstances of the case, the Settlement is sanctioned, & the charge brought against Government in the Police Budget for 1896-97. Medical aid was not called in by the persons concerned. The latter cannot therefore be made to pay for it. The D.M. Journal may be asked to have the men vaccinated. The charge seems therefore to be proper one under the Police Budget. Subs. 30/9/96

1 Why was not the man sent to Hospl for treatment?

2 If they were treated as private cases, why shd the charge be borne by Govt funds?

3 If in an emergency like this when there was a risk of the persons dying unattended by medical treatment is it not the first duty of the Govt to render such aid to poor persons?

4 The question is an important one. It must be considered on the most liberal

Sir,

With reference to your No. 867 C.Sn. 89 dated 8th instant, I have the honor to state that the wounded persons, referred to were neither in-door nor out-door patients of the Local Fund Dispensary at Malavally nor were they the prisoners in Lock up or Jail to entitle them to free medical aid.

(Enclosures herewith returned)

2. The Hospital Assistant appears from the correspondence to have been directed by you to undertake to treat these cases which he (the Hospital Assistant) did and as they are to be regarded as private cases, the parties themselves if they can afford to do so, should pay the medical man for the services rendered to them, at the rate specified by the Hospital Assistant in his bills which is in my opinion moderate.

3. If, however, you should consider that the parties (I mean the wounded persons) are not in position to meet the demand of which you are the best judge since you have visited these sick people in their own houses, it is for you, I believe, to make any arrangement whereby the Hospital Assistant can be paid for his troubles.

SIR,

With reference to your docket No. 4712/9 5 29 dated 8th October 1896 re the treatment of the wounded in the Malavally riot in their own houses, I have the honor to forward Copy of docket No. 221 dated 12th December from the Superintendent of Police, French Rocks Sub Division, and its enclosures, and to report that the men were directed to be

treated in their own houses by me as they flatly refused to be treated in the Dispensary. The Hospital Assistant further states that there was no accommodation in the wards to receive them. It was with difficulty that they were treated even in their own houses, as they were careless of their own lives, and evinced a spirit of sullen hostility to Government servants and were extremely suspicious of everything proposed although meant for their own good. They had to be treated for enabling them to recover and appear at the trial, and they have since been Convicted for rioting by the District Magistrate.

I would request that under the circumstances above represented the
